RHINO

Morrells®

RHINO Sustainability

Sustainable Forestry

We use sustainable materials, balancing craftsmanship and environmental responsibility.

Plant Based Composition

Our RHINO paper is 100% recyclable, and can be recycled up to 7 times.

Toxic Free

Our ink is water based and does not contain any dangerous or toxic substances.

No Shrink Wrap

We wrap our exercise books with recyclable paper banding.

Rhino Conservation

We support vital conservation projects that protect critically endangered rhinos and their natural habitats.

Made To Last

Our RHINO products are developed with strong materials to last a lifetime.

Eco Sourcing

Our EU location minimises the distance between forest, mill, factory, and warehouse, reducing long-distance imports.

The RHINO Brand Promise

Lifetime Warranty

Designed fit-for purpose and made from quality materials, our promise to you is that a RHINO product will stand the test of time, from the very first to the very last page. If it has not lasted its expected lifetime, when used under normal circumstances, we'll replace the product free of charge.

Buying RHINO saves rhinos

We've been working with Save the Rhino International for more than two decades and to date we have donated over £120,000; investing in conservation projects for a future where rhinos can thrive. Save the Rhino International's logo is printed on the back of every RHINO exercise book raising awareness amongst some 30 million teachers and children every year.

Printed with solvent-free ink

We print with water-based, solvent-free ink, carefully chosen to ensure that no harmful chemicals impact any part of our production process - from the initial stages of our supply chain to the final product received by the end user.

100% recyclable paper

RHINO paper is 100% recyclable, and its plant-based composition allows it to be recycled up to 7 times. Get creative by tearing it into small pieces and using it as compost around plants and seedlings, adding nutrients and moisture to the soil.

Made in Europe

Our purpose-built factory, certified by FSC® (FSC-C092742) and PEFC (PEFC/19-31-05) for responsible forestry and sustainable practices, is strategically located in Tallinn, Estonia, in close proximity to leading EU paper mills.

Paper banding

In 2020 we replaced plastic shrink-wrap on RHINO exercise books with a sustainable paper banding, making the wrapping recyclable and helping us eliminate over 60 tonnes of single-use plastic per year!

Quality paper from sustainable forests

We're dedicated to using sustainable materials to create high-quality products, balancing production with environmental responsibility. We believe responsible sourcing is key to crafting products that excel in both quality and eco-friendliness.

RHINO Tinted Exercise Books

Visual sensitivity is experienced by more individuals than we might realise, and here at **RHINO** Stationery, we've developed a range of products designed to help ease the discomfort that can arise from visual processing challenges.

Our **award winning RHINO** tinted exercise books feature specially designed paper in the right various shades to support those who experience eye strain, headaches, or discomfort when using standard white paper. These books are an excellent tool for individuals in school. Available in four colours - blue, green, pink, and cream - our tinted paper exercise books may help reduce eye strain, improve focus, and enhance reading comprehension.

What makes RHINO tinted exercise books stand out?

- Premium quality 80gsm tinted paper
- Lined, squared and blank rulings available
- Printed using solvent-free, water-based inks
- Manilla Covers

We are delighted to announce that our **RHINO** tinted exercise books have been awarded the Stationers' Warrant 2025, a formal recognition awarded to companies that supply stationery of exceptional craftsmanship, quality, and service.

RHINO Tinted Pads and Paper

NEW!
A4 Cream
Squared
Pad

Our **award winning** tinted paper range, which has received the Stationers Warrant 2025, is specially designed with the right colour shades and can help reduce and relieve visual disturbances such as eye strain, headaches, and blurry vision. RHINO Stationery's tinted paper refill pads are a valuable resource for neurodivergent individuals, including students who have special educational needs such as dyslexia, dysgraphia, or dyspraxia, and notice blurry, jumping lines or struggle with the glare of white paper.

What makes RHINO SEN refill pads stand out?

- A4 (approx. 297 x 210mm)
- Available in 5 different colours
- Durable coated cardboard cover
- Strong 80gsm paper with 2 punched holes
- Printed using solvent-free, water-based inks

Morrells® Handwriting Books

Morrells teaches handwriting using the revolutionary Morrells Handwriting books, based on over a decade of handwriting experience.

Morrells' exclusive 'Bounce Technique,' with directional arrows, provides clear and memorable guidance to make the learning process easy and intuitive. As children gradually progress through the Letter Formation workbook series, they will become more confident in their handwriting abilities, leading to an overall improvement in handwriting practice across all other subjects.

Buying **RHINO** Saves Rhinos

We've partnered with Save the Rhino International for over 27 years, recently celebrating a milestone donation of over £120,000; investing in conservation projects to help save and protect this endangered species.

Save the Rhino International is a charity that works to protect all five species of rhino across Africa and Asia; their vision is a world where all five species thrive in the wild.

Since 2006 the Save the Rhino logo has been printed on the back of every RHINO exercise book, notebook and pad; with the aim of raising awareness amongst teachers, children and professionals. One great advantage of buying or even selling RHINO products is that you, too, will be raising awareness for this great cause.
