The RHINO Brand Promise

All our products come with a lifetime warranty and a commitment to sustainable sourcing and minimal waste, so you can be confident of the very best quality and environmentally conscious paper products to support you and to help you achieve your own eco targets.

Lifetime Warranty

Designed fit-for purpose and made from quality materials, our promise to you is that a RHINO product will stand the test of time, from the very first to the very last page.

If it has not lasted its expected lifetime, when used under normal circumstances, we'll replace the product free of charge.

Buying RHINO saves rhinos

We've been working with Save the Rhino International for more than a decade and to date we have donated over £120,000; investing in conservation projects for a future where rhinos can thrive. We believe that together we can make a difference.

Since 2006 Save the Rhino International's logo has been printed on the back of every RHINO exercise book raising awareness amongst some 30 million teachers and children every year.

Paper banding

We are on a mission to eliminate single-use plastics from our products and packaging, and in 2020 we replaced plastic shrink-wrap on RHINO exercise books with a sustainable paper banding, making the wrapping recyclable and helping us eliminate over 60 tonnes of single-use plastic per year! We have projects underway to trial similar packaging options with loose leaf paper, notebooks and pads.

Printed with solvent-free ink

We print with water-based and solvent-free ink to ensure that no harmful chemicals impact our supply chain or the end user.

100% recyclable paper

RHINO paper is 100% recyclable, and its plant-based composition allows it to be recycled up to 7 times.

Get creative by tearing it into small pieces and using it as compost around plants and seedlings, adding nutrients and moisture to the soil.

Quality paper from sustainable forests

We're dedicated to using sustainable materials to create high-quality products, showcasing our commitment to balancing production with environmental responsibility. Our belief is that responsible sourcing is crucial for crafting products that excel in both quality and eco-friendliness.

Made in Europe

Our purpose-built factory, certified by FSC® (FSC-C092742) and PEFC (PEFC/19-31-05), is situated in Tallinn, Estonia, close to EU paper mills.

“Excellent quality paper.
Not disappointed by this product.
Paper is great quality, has come in very
handy for my current projects.

Did You Know?

Our manilla covers are made from 100% reworked fibre, which starts out as off-cuts from other production runs at the paper mill. There is also zero waste to landfill - the fibrous waste extracted during the process, is land-spread for its agricultural benefits.

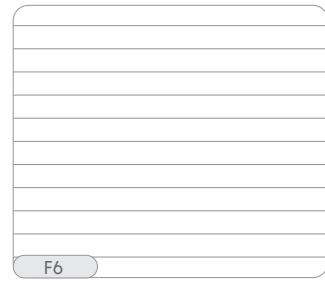

The smooth inner papers are also sustainably-sourced and education standard. For special educational needs, we have paper tints specifically designed in the right shades to support neurodivergent individuals and help overcome visual stress - making writing a comfortable and enjoyable experience once again.

Decent value for money.
I required some exercise books for school notes and these were fantastic. Good quality paper and value for money. I've bought some more for uni.

Did you know?

The Cornell Method for notetaking was created by Walter Pauk, a professor at Cornell University, US, in the 1950s.

Using Cornell books enhances the study process by organising information, encouraging active engagement, and providing a structured framework for review.

Good quality. Exercise books tend to come in two guises. Cheap or Good quality. I am pleased to say these books bridged the gap by being both. Nice thick cover and good quality paper makes sure that my notes will stay with me for years to come.

RHINO Tinted Exercise Books

Visual stress affects more people than we might imagine and here at RHINO, we have developed a range of products to help reduce and relieve the symptoms of visual disturbance.

The RHINO tinted exercise books have tinted paper that been specifically designed with the right shades to help overcome tiredness, headaches or discomfort typically experienced when using white paper, and are the perfect support at school. With 4 colours to choose from - blue, green, pink and cream - our tinted paper exercise books can help relieve eye strain, improve focus, and enhance reading comprehension. Just be prepared to try a few colour options to find the one that suits best.

We are delighted to announce that our RHINO tinted paper range has been awarded the Stationers' Warrant 2024, a formal recognition awarded to companies that supply stationery of exceptional craftsmanship, quality, and service.

Easy to write on.
For my dyslexia people out there, if you need a light blue paper, with lines.

I would recommend this product!

It's helps me so much throughout college, a lot of my friends now, who struggle with white paper have bought this, and they couldn't believe how much it's helped them.

Fantastic light blue refill pad - less visual stress!

If you are dyslexic or have colour sensitivities then this is a great pad - the pages are smooth and not overly shiny like some of the optic papers can be.

I bought this refill pad as a basket filler and did not really need it. However, I can genuinely say this is the nicest paper I have ever written on. It is smooth and soft but holds pen well, so can be used on both sides without problems. I would definitely recommend this product and will absolutely be buying it again!

Buying RHINO saves rhinos

Lifetime Warranty

Celebrating 30 years of rhino conservation!

Reflecting on rhino conservation over the last three decades, we have witnessed some important successes. Rhino populations in Africa have more than doubled, from fewer than 10,000 in the early '90s to 23,290 by the end of 2022. Greater one-horned rhinos have increased to 4,018 and been successfully reintroduced to former habitats in India and Nepal, and although remaining under serious threat, the recent births of Sumatran and Javan rhinos in Indonesia, offer much-needed hope for these special species.

For nearly two decades, Victor Stationery has partnered with Save the Rhino International in a shared commitment to rhino conservation. Since 2006, the Save the Rhino logo has been printed on the back of every RHINO Exercise Book, Notebook, and Pad, serving as a constant reminder and channel for much-needed awareness. To date we have donated over £120,000 to this vital cause.
