The Story of RHINO

Assisting people of all ages to improve their learning & communications through the use of environmentally conscious quality paper products

RHINO Sustainability

Sustainable Forestry

We use sustainable materials, balancing craftsmanship and environmental responsibility.

Plant Based Composition

Our RHINO paper is 100% recyclable, and can be recycled up to 7 times.

Toxic Free

Our ink is water based and does not contain any dangerous or toxic substances.

No Shrink Wrap

We wrap our exercise books with recyclable paper banding.

Rhino Conservation

We support vital conservation projects that protect critically endangered rhinos and their natural habitats.

Made To Last

Our RHINO products are developed with strong materials to last a lifetime.

Eco Sourcing

Our EU location minimises the distance between forest, mill, factory, and warehouse, reducing long-distance imports.

The RHINO Brand Promise

Lifetime Warranty

Designed fit-for purpose and made from quality materials, our promise to you is that a RHINO product will stand the test of time, from the very first to the very last page. If it has not lasted its expected lifetime, when used under normal circumstances, we'll replace the product free of charge.

Buying RHINO saves rhinos

We've been working with Save the Rhino International for more than two decades and to date we have donated over £120,000; investing in conservation projects for a future where rhinos can thrive. Save the Rhino International's logo is printed on the back of every RHINO exercise book, raising awareness amongst some 30 million teachers and children every year.

Printed with solvent-free ink

We print with water-based, solvent-free ink, carefully chosen to ensure that no harmful chemicals impact any part of our production process - from the initial stages of our supply chain to the final product received by the end user.

100% recyclable paper

RHINO paper is 100% recyclable, and its plant-based composition allows it to be recycled up to 7 times. Get creative by tearing it into small pieces and using it as compost around plants and seedlings, adding nutrients and moisture to the soil.

Made in Europe

Our purpose-built factory, certified by FSC® (FSC-C092742) and PEFC (PEFC/19-31-05) for responsible forestry and sustainable practices, is strategically located in Tallinn, Estonia, in close proximity to leading EU paper mills.

Paper banding

In 2020 we replaced plastic shrink-wrap on RHINO exercise books with a sustainable paper banding, making the wrapping recyclable and helping us eliminate over 60 tonnes of single-use plastic per year!

Quality paper from sustainable forests

We're dedicated to using sustainable materials to create high-quality products, balancing production with environmental responsibility. We believe responsible sourcing is key to crafting products that excel in both quality and eco-friendliness.

"Never Let me down.
As you can always expect from using RHINO exercise books, the quality is top notch and they always have a good feeling in your hands."
- Sue - Whitley Bay

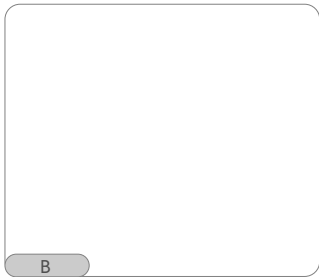

Did You Know?

Our **manilla covers** are made from 100% reworked fibre, which starts out as off-cuts from other production runs at the paper mill. There is also zero waste to landfill - the fibrous waste extracted during the process is land-spread for its agricultural benefits.

The smooth inner papers are also sustainably-sourced and education standard. For special educational needs, we have paper tints specifically designed in the right shades to support neurodivergent individuals and may help reduce visual strain - making writing a comfortable and enjoyable experience once again.

Did you know?

The Cornell Method for notetaking was created by Walter Pauk, a professor at Cornell University, US, in the 1950s.

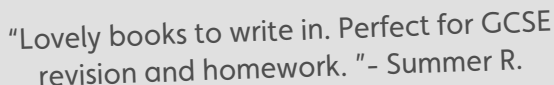

Using Cornell books enhances the study process by organising information, encouraging active engagement, and providing a structured framework for review.

"Great quality, great price."
I've bought my notebooks from RHINO for years and still get the same amount of pleasure using them every day. The quality of the paper is excellent. No frills, no distracting extras, just simple, functional design at a great price, and I love that every purchase is helping rhino conservation. That's a win-win for me."

RHINO Recycled Range

Each of these beautifully illustrated notebooks and pads, made with 100% recycled paper celebrates one of the rhinos that we are helping to protect through our partnership with the charity Save the Rhino International. #BuyingRhinoSavesRhinos

Did you know?

Three of the five rhino species are Critically Endangered, meaning that they face an extremely high chance of extinction in the wild. For over two decades, we have partnered with Save the Rhino International in a shared commitment to rhino conservation. Since 2006,

the Save the Rhino logo has been printed on every RHINO exercise book, notebook, and pad, serving as a constant reminder to channel much-needed awareness for this vital cause.

Morrells Handwriting Books

Morrells teaches handwriting using the revolutionary Morrells Handwriting books, based on over a decade of handwriting experience.

Morrells exclusive 'Bounce Technique,' with directional arrows, provides clear and memorable guidance to make the learning process easy and intuitive. As children gradually progress through the Letter Formation workbook series, they will become more confident in their handwriting abilities, leading to an overall improvement in handwriting practice across all other subjects.

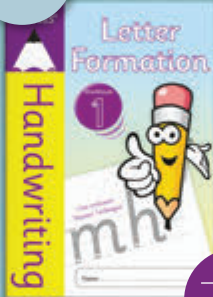

Morrells workbooks are based on ability rather than age, designed to improve the handwriting of both primary and secondary school children, as well as adults.

Celebrating 30 years of rhino conservation!

Did you know... For nearly two decades, we have partnered with Save the Rhino International in a shared commitment to rhino conservation. Since 2006, the Save the Rhino logo has been printed on the back of every **RHINO** Exercise Book, Notebook, and Pad, serving as a constant reminder and channel for much-needed awareness to this vital cause.

Our beautifully illustrated notebooks and pads, made from 100% recycled paper, celebrate the rhinos we help protect through our partnership with Save the Rhino International. Each purchase supports both environmental sustainability and wildlife conservation. By buying these products, you not only promote eco-friendly choices but also the preservation of these magnificent animals.
